CERTIFIED RETURN RECEIPT REQUESTED

Mr. Leon Munyan
Sunshine Mining Company

Dear Mr. Munyan:

Re: Trixie Tailings Pond Modifications, New Burgin Mine,
ACT/049/009, Utah County, Utah

The Division has reviewed information received on June 3, 1985 from jbr Consultants Group concerning modifications to proposed tailings ponds at the Eureka operations.

Approval for these modifications as described in the above mentioned submittal and Sunshine's application, dated April 2, 1985 are hereby granted with the following stipulations:

- Additions
made 6-14-85*
1. Sunshine must provide an accurate map showing the changes to the disturbed area boundaries. These changes can be provided on the drawing labeled, "Burgin, Hunter Shaft and Tailings Pond Reclamation Areas", which was submitted in the 1984 permit application or may be shown on Figure 1., "Site Vicinity Map" dated 5-31-85 as provided by Mr. Buck in your June 3, 1985, submittal.
 2. An addendum to Exhibit "A" of the Surety form must be provided to describe and include those areas to be added to the disturbed area boundaries. The Surety must also be notified and approval of such an addition must be submitted by the Surety to the Division.

ACT/049/009

A response to both stipulations shall be submitted to the Division no later than 30 days after receipt of this letter and disturbances outside the currently approved disturbed area boundaries shall not be made until both stipulations have been met.

With regard to bonding of the additional disturbed area, Sunshine will not be required to revise their bond at this time. The estimated amount for the additional reclamation work represents a very small percentage of the amount of bond currently posted by Sunshine and contingencies in the current bond estimate are sufficient to allow for such modifications. The Bond amount may be adjusted at a later date if additional modifications are requested or the Bond is adjusted for any other reason.

Should you have any further questions concerning meeting the requirements of the stipulations of this approval, please contact Sue Linner or Randy Harden of my staff. Thank you for your cooperation and attention to these remaining concerns.

Sincerely,
